Please enjoy this beautiful trail, built and maintained by volunteers of the Wagoner Trails Club and the City of Tower. A hike around the rugged and hilly **Lower** and **Upper** Ridge segment will reward you with incredible scenic lookouts over Lake Vermilion in the midst of tall pines and impressive lichen-covered bedrock outcrops. The **Outer Ridge Loop** offers a flatter, easier hike on an old woods road under a sheltering canopy of aspen, birch, firs, and pines, while still giving you a path to the scenic overlook on the Upper Ridge. This loop is ideal for snowshoeing in the winter.

How to find your way? Look for blazes (paint markings) on prominent trees along the trail to guide your way. Each intersection has a posted map.

**Trails are not patrolled - so use caution and call 9-1-1 in case of emergency.**
